An exciting online race for teams...

An opportunity to let out your competitive spirit and develop your leadership skills in a 6 week digital race.

Every week a new challenge will be posted, each designed to be completed in around 60-90 minutes.

Why take part?

An opportunity for leaders to reflect on their leadership skills and know how

An opportunity for managers and team members to reflect on and develop their knowledge and skills

A unique, fun and competitive team building opportunity

A great opportunity to work and learn as a team

An opportunity to collaborate and meet online with teams in your business

What previous race-goers have said:

"I loved the 1 hour per week get together to think about something completely different"
Marlies, The Netherlands

"I'm enjoying it along with my team too. Thanks for working through such exciting activities" - Brazil

Key information

- Teams compete against each other across 6 weeks, with one challenge per week.

- Teams are ideally made up of 3-8 members.

- All teams must have access to technology as these are online activities.

- Most challenges can be completed during a meal or coffee break.

- Teams choose their own time to work on the challenges as long as they submit within the deadline each week.

- Not all team members will need to take part each week so the bigger the team you have, the more options you have to deal with each challenge.

- Scores for each challenge will be decided and allocated by representatives of The Leadership Race team and then notified to teams each week.

- A trophy will be awarded to the winning team during a wrap up session where all those taking part have an opportunity to network as well as share learning and ideas.

- Time required each week is approximately 60-90 mins per person.

What kind of challenges will there be?

The challenges will be accessible each week via **www.theleadershiprace.com/**

The style/content varies from challenge to challenge, ensuring a fun and engaging experience.

Each week has a different focus. For example:

Week 1 - Adaptability and ethical behaviours

Week 2 - The importance of community and the environment
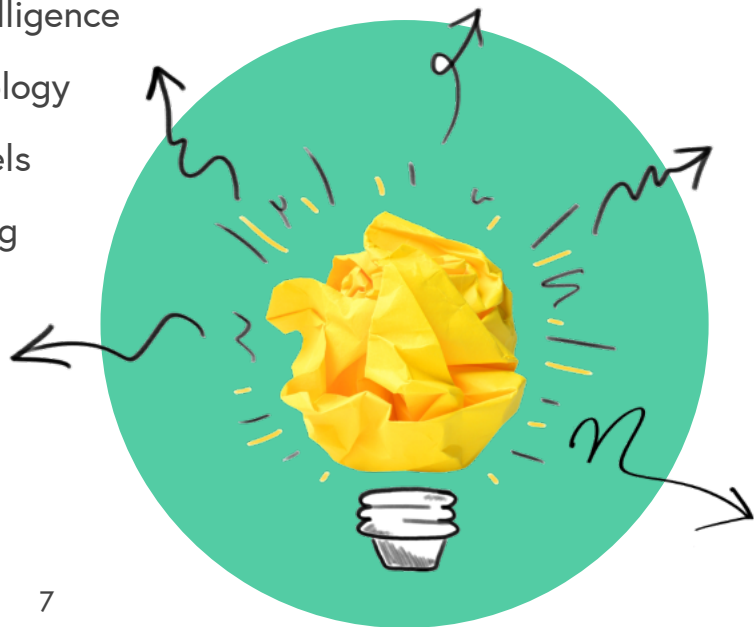

Week 3 - Networking and collaboration skills to increase our effectiveness

Week 4 - Developing cultural intelligence

Week 5 - Developments in technology

Week 6 - Learning from role models

Week 7 - Effective problem solving
